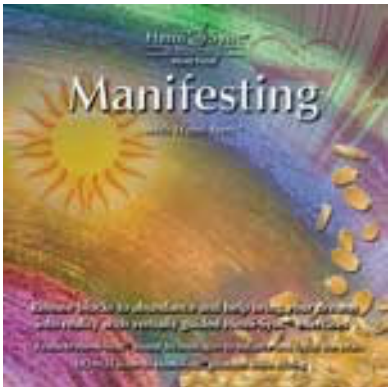
CD REVIEW:
MANIFESTING WITH HEMI-SYNC®



Greatly enhance your ability to manifest positive elements in your life. Conscious manifestation is not as simple as thinking about whatever you want and it will come true. The manifesting process involves all parts of us—as well as energies outside of us—and is most effective and rewarding when we have an open heart and a greater under- standing of the process.

Using his expertise, Joe Gallenberger, Ph.D., has created verbally guided exercises, combined with Hemi-Sync® frequencies, to expand your awareness and energy in creating new or enhanced patterns that you may desire. Another title by Joe Gallenberger Ph.D.is *Partners Meditation*.
